EDUCATION

Bachelor of Computer Science
Comsats University Islamabad
Sahiwal Campus
2021-2025

Intermediate
Aspire College Sahiwal
2019-2021

EXPERTISE

- Web Development
- Android App Development
- Software Designing
- UI UX
- Kotlin
- Database Mysql
- Machine learning
- Firebase
- Digital Marketing
- Figma

LANGUAGE

- English
- Urdu

PROFILE

BSCS student with expertise in UI UX design ,App development and web development, eager to enhance skills . Passionate about learning and exploring new technologies, I bring a track record of completing diverse projects. Seeking an opportunity to contribute and grow in a dynamic learning environment.

EXPERIENCE

Andriod App Development

May 2024

Bakery App

I gained invaluable experience in crafting user interfaces and implementing firebase database by making both user and admin (**Bakery apps**) This hands-on learning journey equipped me with the skills to design UIs that enhance user experience and efficiently manage data storage using realtime firebase .

WEB DEVELOPMENT

JUNE 2024

E-commerce website

Worked on developing a skincare e-commerce website using HTML, CSS, JavaScript, jQuery, and PHP during a web development camp. This project helped me understand the basics of UI design and database management in XAMPP. I learned to create user-friendly interfaces and improve data storage methods.

Machine Learning

May 2024

Optimal House Finder

Developed a machine learning project using decision tree algorithms to identify the best house in town based on given requirements. This project involved data analysis, feature selection, and model training to accurately predict optimal housing choices.

SOFTWARE DESIGN

January 2023

DESKTOP APPLICATION FRONTEND

Semester Project / It enriched my frontend development skills and instilled in me a passion for creating impactful user experiences.
